- Collaborated in a team of 5 to create a Movie Review application.

Education

University of Houston-Downtown, Davies College of Business, Houston, Texas
Bachelor of Business Administration in Management Information Systems
December 2020
GPA: 3.8, Summa Cum Laude & 3x Dean's List

Projects

White Fox Marketing Lab Website
Contributed to website development for White Fox and its clients, addressing unexpected technical challenges while implementing advanced and intricate design features.
Technologies Used: PHP, WordPress, Elementor, Webflow

Workout Tracker App
This project is a Workout Tracker designed to help users log their fitness routines and track their progress over time. The app allows users to log in, create personalized workout routines, and track the sets, reps, and weights used for each exercise.
Technologies Used: React, Node.js, Express, PostgreSQL, HTML, CSS, JavaScript

ZENBOWL
Built using React and Bootstrap, ZENBOWL is a minimalist web application that provides users with a calm, interactive experience.
Technologies Used: React, Bootstrap, HTML, CSS, JavaScript

Movie Review App
Developed a Movie Review web application where users can submit reviews and rate movies, created during Full Stack Java training at Revature.
Technologies Used: Angular, Java, PostgreSQL, HTML, CSS, JavaScript

Personal Portfolio Website
